

AUTO POWER

24V TO 12V POWER CONVERTER

MODEL # 091-136-24-12

The "AUTO POWER" is a small, highly reliable, switching power converter designed to operate 12-volt devices from a 24-volt battery. Filtering of the output is provided to eliminate noise when operating a radio or sensitive electronic instruments. Capable of driving loads up to 3 amperes, the device provides reliable power at all load currents from zero to 3 amperes. Housed in a vented enclosure the AUTO POWER may be easily mounted adjacent to the equipment it powers.

SPECIFICATIONS:

Input: 26 +/- 4 Vdc

Output Voltage: 12.5 +/- .5 Volts

Output Current: 3 Amps Max

Output Ripple: 10 Millivolts RMS Max

Weight: .5 lbs

Warranty: 3 Years

ENERGIZED AND READY, WHEN SECONDS COUNT

170 Cherry Avenue, West Sayville, NY 11796-1221, Toll Free: 800-346-0857, Fax: 631-567-5826, Web: <http://www.kussmaul.com> E-Mail: sales@kussmaul.com

CONVERTS 24 VOLT TO 12 VOLT POWER

LOW RIPPLE OUTPUT

POWERS RADIOS OR ELECTRONIC INSTRUMENTS

RUGGED CONSTRUCTION, SHORT CIRCUIT PROOF

3 YEAR WARRANTY
