

## INSTRUCTION MANUAL

# AIR LINE ALARM

### AUDIBLE ALARM with LED INDICATOR

The 091-248 Air Line Alarm is designed to fit into a standard 1.45" x 0.83" (091-248) or 1.73" x 0.87" (091-248-N and 091-248-E) panel cut-out. Connect the black wire to the pressure switch, supplied with alarm. Connect the opposite side of the pressure to chassis ground. Connect the red wire to the ignition switch run circuit.

### DESCRIPTION

The Air Line Alarm alerts driver with audible alarm and red LED indicator if the air line is connected while the vehicle is running. Once external air line is disconnected, the alarm and LED light will turn off.

### FEATURES

- 85 dB alarm
- LED indicator
- Designed for vehicle switch panels
- Reverse polarity protected

### INCLUDES

- Pressure switch, x1
- TEE fitting, x1
- QD's, x2
